summary of Orange customisation

Item	Comments
Homescreen	The Orange Homescreen is a unique feature of Orange Signature phones providing consistent, simple and intuitive access to key services on the phone.
Orange Help	Orange Help guides users through the functions on the phone and the services that Orange has added helping them make the most of the SPV C550.
Packet Video	PacketVideo provides an innovative progressive download service for smoother access to video.
Orange Back Up and Downloads	<p>Back Up enables users to safely store information on their phone by synchronising contacts, calendar and any other applicable data onto the Orange network and then, when required, restore the information on a different handset that supports Back Up.</p> <p>Downloads enables Orange customers to preview premium content offline before purchasing such as ringtones.</p>
URLs and numbers	To make it simple for our customers, locally relevant URLs and numbers have been loaded onto the SPV C550 such as directory enquiries, Orange customer services and direct access to key online services.
Orange Email solution	With the Orange email solution you can set up an email account (POP and IMAP) so that you can send and receive email with attachments.
